Abstract (en)  
[origin: EP2194197A2] The fitted sink (1) has a frame structure (4) fixed to a lower side of a virtual sink (1') in a region of sink basins (3a, 3b). The frame structure accommodates a set of waste containers (5a, 5b). The frame structure includes an opening for removing the waste containers, and an extraction device is provided for the waste containers in the frame structure. The waste containers are set on the closed lower side of the frame structure, where the extraction device includes a holding structure for the waste containers.
