Abstract (en)
[origin: GB2452280A] A portable lounge 100 comprises a base section 120 and a support frame 110 pivotally mounted to the base section by pivoting means, such as pivot pin 130. The base section and support frame can be configured in a first position in which the support frame is housed within the base section and a second position in which the support frame is supported by support means in one of a plurality of pivoted positions with respect to the base section. The lounge may have a detachable headrest 290 connectable with the end of side members 140.
