Abstract (en)

[origin: EP2196278A1] A system for marking coated gypsum slab packs comprises a slab packs marking device (12) and conveying means (13) adapted to move slab packs (14) to the marking device, said device (12) being made with a laser device provided with a laser head (15) adapted to imprint a marking on the slabs pack (14) through laser, the laser device (12) being moveable between an idle position retracted from a path of the slab packs and an operative position advanced towards said path for imprinting the marking on the slabs pack.
