Abstract (en)

[origin: EP2196592A1] The timber ceiling element (1) or timber wall element has wooden boards (2) or wooden lamellas combined together. Each individual wooden board of the element has sides of recesses (6,6') running longitudinal to the wooden board. The recesses are symmetrical to each other. The wooden board is designed in the cross section double-T-shape with an upper transversal element (4), a lower transversal element (5) forming the visible side and a rod (13) placed between the two transversal elements.
