Abstract (en)

[origin: EP2196610A1] The claimed invention comprises a substantially rectangular metal plate or perimeter drag plate, formed from a metal sheet by stamping and die-casting thereof; wherein the plastic part which includes the clip for fastening and immobilising the window pane by the lower portion thereof is rigidly attached to said metal sheet; said clip has a slot in the central portion thereof, where the window pane rests, thereby rigidly attaching the plastic part to the three point drag plate.
