Abstract (en)

[origin: WO2009043852A1] The invention relates to a method for describing a behavior of a technical apparatus, which has a number of units, a system graph (8), which comprises a number of levels, being automatically generated for the technical apparatus, in each case a k+1th level being subordinate to a kth level and at least one subordinate unit in the k+1th level being associated with a superior unit from the kth level, a technical behavior of the at least one subordinate unit being summarized in each superior unit. Furthermore, the invention relates to a method for the diagnosis of a technical apparatus.
