Abstract (en)
[origin: WO2009051396A1] A plasma display apparatus is disclosed. The plasma display apparatus includes a plasma display panel that displays an image in a plurality of frames each including a plurality of subfields. A first frame of the plurality of frames includes a 1-1 subfield group and a 1-2 subfield group each including at least one subfield, and a second frame immediately following the first frame includes a 2-1 subfield group and a 2-2 subfield group each including at least one subfield. At least one subfield of the 1-2 subfield group is identical to at least one subfield of the 1-1 subfield group, and at least one subfield of the 2-1 subfield group is identical to at least one subfield of the 2-2 subfield group.
