Abstract (en)
[origin: EP2199211A2] This invention is related to a hologram installation machine (1) which enables installing a hologram cap onto a valve of a cylinder. The object of this invention is to affix the holograms onto the valves on the lubes by using automation system, showing that the quality and safety controls of the house type round gas tubes are made and thus to reduce costs and eliminate faults depending on the human factor by automating the hologram installation procedure.
