Abstract (en)

[origin: EP2199668A1] The mounting device (10) comprises a mounting element (12) for a transparent plate. A base element (14) is provided, which is connected with a bulb housing. A connecting element (16) is provided, which is connected on the one hand with the mounting element and on the other hand with the base element. The connecting element is movably arranged corresponding to the base element and the mounting element. An independent claim is also included for a lamp, which is a dome lamp, particularly a cover installation lamp.
