Abstract (en)  
The device has a contact screw contactingly pressing a flat conductor and a bus bar together. The screw penetrates through the conductor and the bus bar in a contact position. A connector housing receives the bus bar, the flat conductor and the screw. The connector housing includes a cover strip fixable in a base (1). The base includes a mounting surface for mounting on a substrate i.e. printed circuit board or a surface of a solar collector. The screw is aligned perpendicular to the mounting surface in a mounting position of the base.

Abstract (de)  
Anschlussvorrichtung zum Anschluss wenigstens eines Leiters, insbesondere eines Flachleiters (7), an eine Stromschiene (4), wobei die Anschlussvorrichtung eine Kontaktschraube (12) aufweist, welche den Leiter, insbesondere den Flachleiter (7) und die Stromschiene (4) kontaktierend aneinander drückt und die den Leiter, insbesondere den Flachleiter (7), und die Stromschiene (4) im kontaktierten Zustand durchsetzt.
