Abstract (en)

[origin: EP2202171A1] The stacking device (1) has a medium for fastening the transport palette (2), and has another medium for holding another transport palette. A fastening unit (13) and a holding unit (19) are vertically arranged and are spaced from each other. A frame (5) has a vertically aligned frame walls (7 to 10). The fastening unit and the holding unit are arranged in the frame. An independent claim is also included for an assembly of two transport palettes with transport volume.
