Abstract (en)

[origin: EP2202378A2] The ground sill comprises a basic profile (2) and an extension profile (3) overlapping its outer edge. The basic profile and the extension profile are inclined downwards to an outer side. The extension profile is mounted on a pre-assembled or to be pre-assembled basic profile without additional connecting units for forming the ground sill. An independent claim is also included for a method for mounting a ground sill.
