Abstract (en)

[origin: WO2009046734A1] The invention relates to a kit for a slab of natural or artificial stone which can be used as a tabletop or worktop in kitchens, laboratories or the like, with at least one reinforcing element arranged on its underside and with an edge strip arranged in the region of at least one lateral surface of the slab, said edge strip having a carrier (1) which accommodates at least one marginal region of the slab (4) and the edge strip (9), said carrier being provided with a carrying arm (2) directed parallel to the slab (4) and forming a support surface (3) for the marginal region of the slab (4), and with a web (7) which extends substantially at a right angle to the support surface (3) and forms a bearing surface (8) for the edge strip (9).
