Abstract (en)

[origin: WO2009053142A1] For a hand-guided machine tool, such as for a plane (12), the pressure switch (1) thereof provided for turning it on and off comprises a switch push-button (15) and a switch position locking arrangement (16) for the switch push-button (15), wherein the locking arrangement (16) comprises locking push-buttons (17, 18) on both sides to the switching plane (20) of the switch push-button (15), said locking push-buttons being separate from each other and connected to each other by way of a coupling gear mechanism (40) such that they can be displaced relative to one another in opposite directions.
