Abstract (en)

[origin: EP2209168A2] The insert (1) has housing elements (14, 15) axially inserted from sides into a mounting sleeve (3). The housing elements have a recess (21) in which a contact holder (23) or a press lock (42) is inserted. The housing elements are directly fixed at the mounting sleeve or within a connection sleeve that is arranged between another mounting sleeve and other housing elements. The former sleeve or the connection sleeve exhibits a transverse wall (6) that is arranged transverse to a longitudinal axis (2) of the mounting sleeves. The lock is made of electrically insulating plastic material.
