Abstract (en)
[origin: WO2009059338A1] The invention relates to a support construction (8) for at least one furniture drive (6a, 6b, 6c), comprising a support rail (13) for bearing the at least one furniture drive (6a, 6b, 6c) and a first and a second fixing device (11, 12) for fixing the support rail (13) to an item of furniture (1). At least one of the fixing devices (11, 12) comprises a mounting part (14) for fixing to the item of furniture (1) and a bearing part (15) that can be connected to the support rail (13). The mounting part (14) and the bearing part (15) can be displaced in relation to each other and can be releasably locked by a locking device (18).
