Abstract (en)
[origin: WO2009068355A1] Spectacles (1) consisting of an optical or sun front piece (2), optionally supported by a frame (3), and comprising two sides (4) connected to the front piece (2) or to the frame (3) via a lug (5) and an associated hinge, said sides (4) comprising removable decorative elements (6) attached by fixing means, characterized in that these means consist of housings (7, 8) facing each other, in the longitudinal direction, at a distance from each other, in a predetermined part (9) of the outside face of at least one of the sides (4), and are capable of accommodating the decorative element (6) made of an elastically deformable material, its length being such that its free ends (10, 11) can be presented in front of the housings (7, 8), which are essentially complementary in shape, on the side (4), after manual flexing of the decoration, and can engage therein such that they are retained therein when released.
