Abstract (en)

[origin: WO2009054014A1] System for the managing of paying car parks for vehicles comprising an operations center (16) and an electronic device (20) to be installed in any vehicles (14), wherein the electronic device (20) includes a localization apparatus (22) of the position of the vehicle (14) and a transceiver (26) able to transmit the data and the position of the vehicle directly to the operation center (16) which verifies if the vehicle is authorized to park or, alternatively it calculates the parking time and the parking cost to be debited.
