Abstract (en)
A multifunction profile (1) is described, composed of at least one guiding profile (1a) adapted to guide a sliding of moving and/or roller screens (40), such guiding profile (1a) having at least one opening towards outside, coupled in parallel at least by interposing at least one inter-space profile (2) to a casing profile (1b) adapted to install profiles (51) of further roller screens (50), such casing profile (1b) being coupled on its rear with at least one third "U"-shaped profile (20b) having at least one opening towards outside and being orthogonal to such guiding profile (1a) and to such casing profile (1b).
