Abstract (en)
[origin: WO2009118032A1] The invention relates to a modular-type electric installation system comprising a control unit (10) for an electric modular arrangement (12). Said control unit (10) and the modular arrangement (12) form a modular unit. A separate communication module (15) is provided for communicating with an external control unit, said communication module being connected or can be connected to the control unit (10) by means of at least one uniform, standardised communication interface (23, 25).
