Abstract (en)
[origin: EP2218362A1] The container has covers (6a, 6b) e.g. protective sheets or blinds, for closing an access opening (3) in a housing (1). The cover and guide devices (10, 11, 12) for the cover are equipped with electrically operated auxiliary elements such as lighting unit (13), a display unit and a security device (15). The cover and the guide device comprise electrical supply lines for the auxiliary elements. The auxiliary elements communicate with a control unit. An energy source i.e. direct current voltage source, is provided for electrical power supply to the auxiliary elements. An independent claim is also included for a method for user information and/or user interaction and/or increasing user safety in a local shop.
