Abstract (en)

[origin: EP2218835A1] The invention relates to a vehicle, in particular a shovel loader, comprising a first frame (1) with a first set of wheels (2,3) and a second frame (4) with a second set of wheels (5,6), whereby the first frame (1) is connected to the second frame (4) by means of a hinged joint (13), such that the first frame can move in relation to the second frame, whereby means (28,29,23) are provided to dampen the movement of the first frame (1) in relation to the second frame (4).
