Abstract (en)

[origin: EP2218864A2] The guide (1) has two halves (2, 3) arranged in a mirror-symmetrical manner and connected with each other by an integral hinge (14). The halves include base bodies (4, 4'), bases (5, 5'), inner guide rods (6, 6') and outer guide rods (7, 7'), where the bases include spacer elements and recesses. The spacer elements are arranged corresponding to the recesses such that the spacer element of one of the halves is engaged in the recess of the other half during folding of the halves on each other. The spacer elements are formed as catch pins.
