Abstract (en)  
[origin: EP2219267A1] The invention relates to a method for manufacturing an electrical connection between a coaxial cable (COAX1) and a coaxial connector (CON1), the method comprising the step of connecting at least one conductor (COAX\_IC1, COAX\_OC1) of the coaxial cable (COAX1) to a conductor (CON\_IC1, CON\_OC1) of the coaxial connector (CON 1) by a welding process, wherein the coaxial connector (CON1) is connected to an end face of the coaxial cable (COAX1) and the welding process is applied with a concentrated application of energy.
