Abstract (en)  
The multilayer synthetic floor coating comprises a decorative pattern (5) representating a natural floor element to be imitated, a support layer, a wear layer, and an adhesive composition applied on one side of the coating in contact with a surface to be received. The coating is present in the form of a strip (8) whose width (10-50 cm) corresponds to the width of the coating and length (4-30 m) corresponds to the length of the elements of the coating. The pattern of the two elements is separated by another pattern imitating a joint (6) connecting natural decorating elements. The multilayer synthetic floor coating comprises a decorative pattern (5) representating a natural floor element to be imitated, a support layer, a wear layer, and an adhesive composition applied on one side of the coating in contact with a surface to be received. The coating is present in the form of a strip (8) whose width (10-50 cm) corresponds to the width of the coating and length (4-30 m) corresponds to the length of the elements of the coating. The pattern of the two elements is separated by another pattern imitating a joint (6) connecting natural decorating elements. The decorative pattern imitates a strip of wood, a stone or tile floor. The strip of the coating is conditioned in the form of a roller. Independent claims are included for: (1) a process for printing a synthetic floor coating; and (2) a process for fabricating a synthetic floor coating.

Abstract (fr)  
La présente invention se rapporte à un revêtement de sol synthétique comportant un motif décoratif représentant un élément de revêtement de sol naturel à imiter, ledit revêtement de sol se présentant sous la forme d'une bande dont la largeur correspond à la largeur dudit élément de revêtement de sol naturel à imiter, et dont la longueur correspond à la longueur d'au moins deux desdits éléments de revêtement de sol naturel à imiter, ledit motif des au moins deux éléments de décoration naturels étant séparés par un motif imitant un joint raccordant lesdits éléments de décoration naturels.
