Abstract (en)

[origin: EP2221518A2] The piece (1) has an upper part (6) including a locking unit (10) for locking a cable duct section on the piece. A lower part (8) includes a hooking unit (28) for hooking the piece on a support wall. The hooking unit comprises elastic tabs extending from a lower side of a junction wall (5) along a direction parallel to the junction wall. The junction wall is prolonged by a support surface (35). The locking unit comprises arms (11) defining a reception zone for reception of yarns of the cable duct section, where the cable duct section is made of latticed wires, warp yarns and warp wires. Independent claims are also included for the following: (1) an assembly for mounting a cable duct section and comprising a support wall provided with an opening (2) a method for assembling a cable duct section.
