Abstract (en)

[origin: WO2009061172A1] The invention refers to a work process for the protection of a user of a computer-based entertainment service such as the lottery or an online entertainment service, against excessive use. The invention refers to a work process for processing the applications for participation of a computer-based entertainment service such as the lottery system. The work process includes receipt of the application sent by an applicant's communication unit, through the communication network, registration of an identity of the communication unit, whereby the identification code in the communication network represents an identity, and whether or not approving the application on the basis of the comparison.
