Abstract (en)  
By providing an apparatus having a plurality of sheet feeders (2), each having a tray (3-6) elongate in top plan view for supporting a stack of elongate sheets (7), wherein a tray can be displaced in an outward direction (10) transverse to the longitudinal direction (9) of the sheet feeders, it is made possible for a tray displaced in an outward direction to be tilted over a relatively large angle at a given vertical clearance from the other sheet feeders.
