Abstract (en)
[origin: EP2223883A1] The assembly and repairing device comprises single or multipart receiving cartridge (10) made of steel, which is inserted in a base recess, and has two longitudinal side walls (12) and a base (13). The side walls comprise an internal wall and an external wall arranged at a distance, which limits a cavity. A lifting unit (15,16) is provided for lifting vehicles, particularly freight vehicle.
