Abstract (en)

[origin: WO2009081035A2] The invention relates to a safety structure (10) that comprises: a first region (14) that is at least partially reflecting and has a reduced opacity; a second region (15) that is at least partially reflecting and has a higher opacity than the first one; a layer (18) of a coating having birefringence properties and covering at least partially the first and second regions.
