Abstract (en)

[origin: WO2009077288A1] The invention relates to a device and a method for storing banknotes, having at least two banknote storage containers (26 to 40). Each of the banknote storage containers (26 to 40) has at least one banknote withdrawal and/or feed opening. The invention further provides for a first receiving device (14) for receiving at least the first banknote storage container (26 to 32). The invention also provides a second receiving device (16) for receiving at least the second banknote storage container (34 to 40). The second receiving device (16) is disposed at a horizontal offset relative to the first receiving device (14).
