Abstract (en)

[origin: WO2010072355A1] The invention relates to a device for inserting a breakaway pin in a breakaway tool by means of a plunger (24), wherein the breakaway pin can be positioned at a desired position over the breakaway tool by means of a mounting element (12) and subjected there to pressure from the plunger (24). The mounting element (12) can thereby be pivoted into and out of the desired position.
