Abstract (en)
[origin: WO2009080496A1] The present invention relates to a valve rod (1) for an iron, comprising at least one point (2), by means of which drop metering can be performed, a body part (3), and a connector (4), by means of which contact can be made between an operating device (10) and the valve rod (1). The invention is characterized in that the valve rod (1) can be manufactured monobloc from plastic.
