Abstract (en)
The table has one set of two floor parts (1, 2) including floors, where ratio between height (1A, 2A) of the floors is about 1:2-1:2.5. Two apparatuses comprise a UV-lamp and/or an infrared lamp. The apparatuses are arranged in center of a longitudinal side of the table. One of the floor parts (1) is tapered on the longitudinal side of the table, and tracks are formed in outer walls that allow a flexible adjustment of the height ratio. A combination of lockable partitions is arranged between surfaces of another set of floor parts (9, 11).

Abstract (de)
Die vorliegende Erfindung betrifft einen Behandlungstisch mit zwei-stöckigem Aufbau sowie die Verwendung des Behandlungstisches für das Durchführen einer Hand- und/oder Nagelpflegebehandlung.
