Abstract (en)

The impeller has a pair of blades (3a, 3b) arranged on a circular carrying disk (1) and exhibiting same size and shape. The blades form a dead space and arranged at distance to a radial outer end and a radial inner end of one of the blades. A cover disk is provided for covering the impeller, and the blades are positioned such that the other blade radially projects over the carrying disk and/or the cover disk. The carrying disk, the cover disk and the blades are made of metal i.e. sheet metal, and connected by welding.

Abstract (de)

Das Laufrad für eine Kreiselpumpe weist eine Tragscheibe und ggf. eine Deckscheibe auf. Die Schaufeln (3) des Laufrades sind identisch, jedoch paarweise so angeordnet, dass sich mit formgleichen Schaufeln Laufräder unterschiedlicher hydraulischer Eigenschaften bilden.
