Abstract (en)

[origin: EP2228604A2] The adapter (1) has a lower section (10) and an upper section (11). The upper section is connected with the lower section in a tilted manner. The upper section has a base component (111) and a telescopic element (112) that is moved to the base component. The upper section and the lower section are connected to a rear side of the adapter in a tilted manner.
