Abstract (en)
Disclosed is a rechargeable battery (10) including an electrode assembly (20), and a case (12) mounting the electrode assembly (20) therein. The electrode assembly (20) includes a separator (23), and first and second electrodes (21, 22) disposed on respective sides of the separator (23). The case (12) has an opening formed at the one-sided end thereof, and a variable region (121) that is capable of being elongated depending upon the variation in inner pressure. A plate is inserted into the opening of the case (12), and a terminal is electrically connected to the electrode assembly and exposed to the outside of the plate.
