Abstract (en)

[origin: EP2230883A1] A microwave cooking appliance, includes: an interior chamber, including a cooking space (2) for accommodating foodstuffs to be-cooked; an apparatus (20,21) for providing microwaves of at least one wavelength » to the interior chamber; and at least one plate-like member (4,22,23) having at least one surface reflective to microwaves and facing an opposite surface reflective to microwaves in the interior chamber. The plate-like member (4,22,23) is movable such as to vary a distance to the opposite surface whilst the microwaves are provided to the interior chamber. At least one of the plate-like members (4,22,23) is movable such as to allow a change in distance to the opposite surface by an amount of the order of at least a quarter wavelength ».
