Abstract (en)

[origin: WO2009074383A1] The invention is based on a hand machine tool striking unit with a scutcher unit (10), which can be moved by means of a piston unit (14) moved in an effective direction (12) by a gas volume (16) in an effective direction (18). It is proposed that the effective direction (12) of the piston unit (14) is dissimilar to the effective direction (18) of the scutcher unit (10).
