Abstract (en)

[origin: EP2233041A2] The system has upper guide rail (2) and a lower guide rail (3) arranged at a distance from each other and provided for guiding doors and/or separating elements. A material (4) i.e. transparent elastic material, is provided in the upper and lower guide rails, and a conductor comprising a round head is fixed to the material. A magnet and/or attachment rod is provided for connecting the doors and/or separating elements.
