Abstract (en)

[origin: WO2009083317A1] An electric hand tool, in particular a boring and/or chisel hammer having a battery-based power supply is proposed. The electric hand tool comprises a machine housing (12) with a handle (16) and at least one additional handle (18). The battery-based power supply has several battery cells (38, 38a) which are housed in the handle (16) and/or in the additional handle (18).
