Abstract (en)  
[origin: WO2009091147A2] A water facility with an underwater walking stage provides a waterplay facility that not only adults but also handicapped people and children can safely use. The water facility includes floating bodies 10 and 10' for floating on the surface of water; a walking stage 20 placed below and connected to both the floating bodies, thereby forming a footing; and rails 30 and 30' connecting each edge of the walking stage with a corresponding one of the floating bodies. The walking stage is supported by the floating bodies to be immersed in the water below the surface of water.
