Abstract (en)
[origin: WO2009077338A1] The invention relates to a refrigerator having a cooled interior, a front door for closing the interior, and at least one tray (5) that can be pulled from the interior toward the front, wherein a horizontally disposed plate (3) is provided in the interior, on which at least one removable guide base (4) having first guide elements (12, 13) is supported in the cover surface thereof. The pull-out tray (5) further has second guide elements (16) on the base surface thereof, which interact with the first guide elements (12, 13).
