Abstract (en)

[origin: EP2236681A1] The module (1) has an electrical energy generating unit comprising an electricity generation group (21) for producing sector voltage, and an exchangeable gas bottle (14) for storing pressurized gas. A vertical wall divides the module into a user side front part and a rear part. The front part is composed of a lavatory bowl, flush control, wash basin, clean water supply control (4) and a lighting unit (6). The rear part has a horizontal base (7) connected to the wall. A sewage tank, transfer tank and waste water tank are located on the base. Independent claims are also included for the following: (1) a sanitary cabin comprising an automated stand-alone sanitary module (2) a method for realizing the sanitary cabin (3) a method for operating the sanitary cabin.
