Abstract (en)

[origin: EP2237206A2] Embodiments of the invention relate to systems, methods, and computer program products for improved electronic discovery. Embodiments herein disclosed provide for an enterprise-wide e-discovery system that provides for source-to-processing file conversion of electronic communications and, in some embodiments, decryption of encrypted electronic communication entries for the purpose of efficiently processing data and supplying the electronic data to third party data analysis providers.
