Abstract (en)  
[origin: WO2009093079A2] The invention relates to the use of compositions comprising herbal preparations for the treatment and prevention of plant diseases caused by pests such as nematodes, fungi and insects. Said compositions comprise a preparation or extract of two or more plants selected from Pimpinella anisum, Peganum harmala, Myristica fragrans, Syzygium aromaticum and Rhazya stricta. Also provided are methods for the treatment or prevention of disease in plants which comprise applying said compositions; seeds, plant growth media, food wrapping and pesticide formulations comprising said compositions; and methods for the prevention of termite damage to buildings which comprise applying said compositions to buildings or to building materials.
