Abstract (en)
[origin: WO2009083433A1] The invention relates to a multilayer brush (10), which substantially has a composite having a graphite component and having a copper component and a layered construction, wherein a first layer (11) is provided with a high copper component and a further layer (12) is provided with a comparatively low copper component. It is provided that the copper component of the first layer (11) in comparison to the copper component of the second layer (12) corresponds to a ratio of $= 3/2$.
