Abstract (en)
[origin: WO2009081351A2] The present invention is aimed at providing a new form of makeup for keratin materials, especially the skin and/or lips, which is appropriate to a personalized makeup, and relates to cosmetic particles formed of at least one physiologically acceptable cosmetic base and possessing a hardness ranging from 0.3 to 2 MPas and a size such that their greater dimension ranges from 0.5 to 5 mm. The invention likewise relates to a method of making up that comprises applying a composition obtained by extemporaneous mixing, before application or at the time of application, of at least two types of cosmetic particles of the invention that are separate from one another.
