Abstract (en)
[origin: WO2009095321A1] The invention relates to an injection device, comprising a fuel pump (20a), a pressure regulator (20b), an injector (20c) and an air control element (20d), wherein the fuel pump (20a), the pressure regulator (20b), the injector (20c) and the air control element (20d) are an integral part of an injection module (2), and the injector (20c) comprises a pressure-controlled nozzle (40) with a pressure space (41), a nozzle body (44) and a membrane (42).
