Abstract (en)

[origin: WO2009098202A1] The invention relates to a method for coupling/uncoupling between a transmitter (1) and a receiver (2) capable of communicating between them via a wireless link, characterised in that said method includes the following steps: transmission of a first signal by the transmitter (1); transmission of a second signal by said transmitter (1); amplitude processing by the receiver (2) of the first (30, 32) and second (31, 33) received signals and storage or erasure by the receiver of an identification code (C1, C2, Cn) of the transmitter (1) based on the processing thus carried out.
